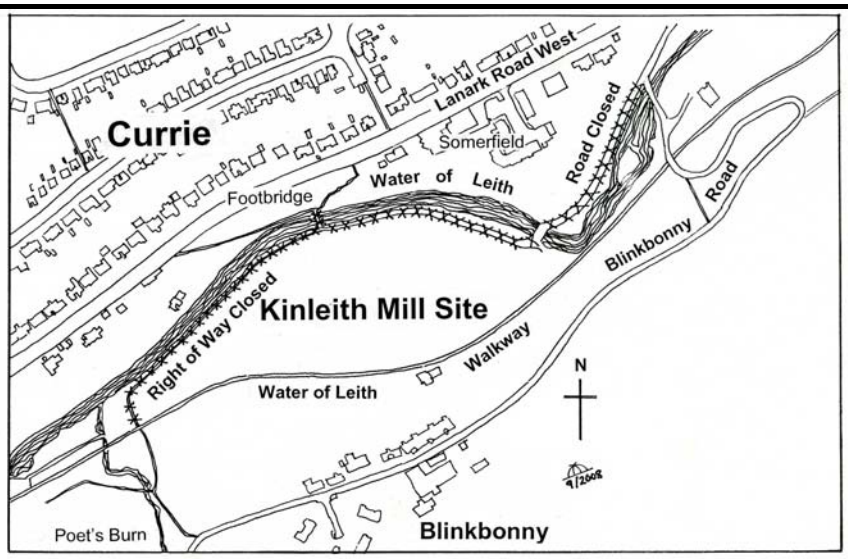
A Petition to City of Edinburgh Council to restore a Right of Way between the Somerfield Garage and the Water of Leith Walkway

Promoted by Currie Community Council



We, the undersigned, call upon City of Edinburgh Council not to renew the Temporary Traffic Regulation Order (TTRO) introduced on 14th April 2008 suspending the Right of Way around the western end of the former Kinleith Mill site. We further request that on the expiry of the present TTRO on 13th October 2008, that within 30 days, City of Edinburgh Council arranges for the provision of a route between the Somerfield Garage and the Water of Leith Walkway that is acceptable to Currie Community Council as representative of the local community, such route being varied from time to time by agreement between the Developer and Currie Community Council to enable development to continue.
